AIR PURIFIERS

SHARED SPACE SOLUTIONS

Trendway >

THE MOST PREPARED SPACES HAVE FELLOWES

Keep your team safe and provide peace of mind.

Public and shared spaces can be breeding grounds for air pollutants like viruses, bacteria, dust, allergens, odors, and harsh chemicals. Any of these contaminants could have a negative impact on the health of your facility's occupants.

Whether you are welcoming employees, guests, patients or patrons, you can provide maximum protection by making your facility safer and healthier—with AeraMax Pro air purifiers from Fellowes.

Discover clean air solutions at [**trendway.com/aeramax-pro-air-purifiers**](https://trendway.com/aeramax-pro-air-purifiers)

REMOVES OVER 99.99% OF COVID-19[†]

In a recent test, Fellowes AeraMax Pro AM3 & AM4 air purifiers demonstrated to eliminate COVID-19[†], using a combination of smart and integrated technologies—only from Fellowes.

The AeraMax Pro AM3 and 4 air purifiers were evaluated in extreme laboratory operating conditions, certainly much more critical and difficult than the real environmental situation. This situation was purposely designed since it is necessary to test the effectiveness of similar sanitizing devices in critical conditions to guarantee their effective performance. Despite the extreme conditions used, the Fellowes air purification technology was able to neutralize the airborne viral load.

Additionally, SARS-CoV-2 mutations do not affect dynamics of its spreading by aerosol particles. As the particulate would remain the same size regardless of the variant, this testing demonstrates AeraMax AM3 & AM4 effectively removes over 99.99% of aerosolized COVID-19 particles.

—Alberto Izzotti, MD, PhD

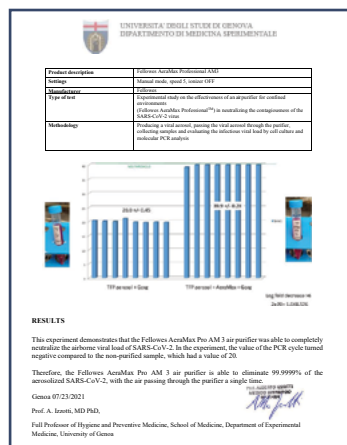

Full Professor of Hygiene, Preventative Medicine, and Public Health
Department of Experimental Medicine at University of Genoa,
School of Medicine, where the Fellowes test was conducted.

Fellowes continues to illustrate the effectiveness of the AeraMax Pro line of commercial air purifiers by utilizing independent testing and third-party standards to prove our performance. Fellowes is committed to expanded testing with fully accredited and independent labs.

» [Go to our Research page for more details at Fellowes.com/air](https://www.fellowes.com/air)

*Fellowes AeraMax Pro AM3 & AM4 air purifiers demonstrated, through independent laboratory testing, to be effective in eliminating aerosolized concentration of SARS-CoV-2 by 99.9999% through a single air pass test of the purifier. In addition, AeraMax Pro air purifiers reached 99.99% airborne reduction of a surrogate Human Coronavirus 229E in a 20m3 test chamber within 1 hour of operation in a separate test.

Test Summary

The following products have been tested by Shanghai WEIPU Chemical Technology Service Co., Ltd as outlined in report(s): WP-20110805-IC-0101; WP-20110805-IC-0101; WP-20110805-IC-0101; WP-20110805-IC-0101; WP-20110805-IC-0101; WP-20110805-IC-0101

Product Description

AeraMax Pro

Manufacturer

Fellowes

Test specification

Technical specification for disinfection (2002) 2.1.3

Test Method

Determination of removal efficiency of HCoV-229E following aerosolization of the virus into a 20m³ environmental test chamber. The device operated at max speed and lower Qm during test.

Additional SKUs

AeraMax Pro

DATA

The below table shows the test summary based on the tested products with the different installed filters.

Report NO.	Product	With the Filters	Antiviral Activity Rate (%)
WP-20110805-IC-0101	AeraMax Pro AM3	Hybrid Filter	>99.99%
WP-20110805-IC-0101	AeraMax Pro AM3/PC	Pre Filter-Carbon Filter-HEPA Filter	>99.99%
WP-20110805-IC-0101	AeraMax Pro AM3/PC	Pre Filter-Hybrid Filter	>99.99%
WP-20110805-IC-0101	AeraMax Pro AM4/PC	Pre Filter-Carbon Filter-HEPA Filter	>99.99%
WP-20110805-IC-0101	AeraMax Pro AM4/PC	Pre Filter-Hybrid Filter	>99.99%

Why Fellowes Air Purifiers?

It Starts with Superior Filtration

The four stage filtration process:

- 1. Pre-Filter** captures large particles
- 2. Active Carbon** filtration adsorbs odors and VOCs from the air
- 3. The H13 True HEPA filter** (AM3 and AM4) captures up to 99.95% of particles as small as 0.1 microns.
- 4. PlasmaTrue™ Bipolar Ionizer** improves the capture efficiency of the particulate filter

OFFICE WORKSPACES

Meeting rooms, conference rooms, training rooms

Protect employees from viruses by reducing airborne contaminants throughout the entire office — from individual offices to meeting rooms.

Meeting spaces are often multipurpose rooms—housing corporate meetings, trainings and more. As people gather in groups, virus transmission is always a top concern but by increasing air exchanges per hour, it helps eliminate airborne viruses. It also helps to remove unwanted odors left from lunches or dinners in the space.

LOBBIES AND WAITING ROOMS

Hospitality, medical/dental offices, corporate office

High-traffic environments—such as lobbies and waiting rooms—can be an area of risk for viral and germ transmission. Fellowes air purifiers with **PureView™ Technology** **makes the invisible visible** with real-time status updates as the air is cleaned. This not only provides improved brand perception, it gives employees and guests maximum peace of mind that the air they breathe is clean.

BREAKROOMS AND LOUNGES

Corporate offices, retail business, teacher's lounge

In areas where employees gather to enjoy lunch or breaks, it's important to protect against the spread of viruses. Moreover, prevent unpleasant odors from lunches, snacks, garbage and more that may linger in the air. Increasing air exchanges per hour helps eliminate these unpleasant odors and airborne viruses.

RESTROOMS

Create a positive first—and lasting—impression of your facilities

These facilities are a breeding ground for bacteria, germs, and odors. AeraMax Pro's patented EnviroSmart™ Technology automatically detects when to purify the air, reducing contaminants and odors quickly.

LOCKER ROOMS

Corporate gyms, spas, schools, and fitness centers

Whether it's teammates in a huddle just before the game, a busy day at the golf course, or peak times at the gym, locker rooms become an inviting environment for germs, odors and sweat. Ensure the health and safety of your guests with AeraMax Pro to remove up to 99.97% of airborne contaminants while reducing odors in close quarters.

EXERCISE ROOMS

Maximize cleaning measures for a safe and pleasant workout

Hand sanitizers and surface wipes are not the only preventative measures needed for cleaning fitness facilities. Air purification is essential to reducing the spread of infectious airborne viruses, especially as occupants are pushing more aerosols into the air. AeraMax Pro continuously purifies the air with up to five air exchanges per hour for fresher, cleaner air.

FELLOWES AIR PURIFIERS ARE SMART

For over a decade Fellowes AeraMax Pro air purifiers have been a leading choice for localized air purification. Fellowes is the only solution that combines True HEPA filtration with EnviroSmart and PureView Technologies.

Our proprietary and patented EnviroSmart technology enables AeraMax Pro commercial-grade air purifiers to continuously monitor your environment and automatically adjust to clean the air, conserve energy and reduce operating costs.

PureView's patented sensor technology and display makes the invisible visible with real time status updates as the air is cleaned. It provides maximum peace of mind that the air you and others breathe is clean.

Reliable

Commercial Grade
Durability

AeraMax Pro commercial-grade air purifiers are built to last, with high-quality components ensuring your unit is reliable, durable, and tamper-proof.

Integrated

A Seamless Addition

AeraMax Pro was designed to seamlessly integrate into your space, whether on the floor, wall-mounted or recessed into the wall. All models are unobtrusive and aesthetically pleasing, so you can provide worry-free air purification wherever it's needed most.
